

Image aligned after margin at start of paragraph

The diagram illustrates a text layout on a white background. A dashed black square is centered on the page. Inside this square is a circular logo with a vertical split: the left half is orange and the right half is a darker brown. The letters 'w' and 'l' are written in white across the split. To the right of the square, there is a horizontal orange bar. Overlapping the bottom edge of the dashed square and the orange bar is a white rectangular box containing the text 'Imaged aligned before margin at end of paragraph'. A thin white line extends from the bottom of this box to the right, ending at the orange bar.

Imaged aligned before
margin at end of paragraph

Image aligned at
center of page,
ignoring margins

absolute position ignores margins.

Margin and column are the same for absolute?

Wrap/opaque has no effect on this
